Stay up to date on new products and advances in technology to ensure your officers are equipped with the tools they need.

FIRSTGARD FOLDABLE CONE FOR PORTABLE ROAD SAFETY

Designed for law enforcement, the FirstGard Foldable Traffic Cone delivers rapid deployment, high visibility, and rugged durability—all in an ultra-compact form. Folding down to just 1.5" wide, it saves trunk space and allows officers to carry more cones in the field. Built from high-density polyethylene with rubber feet for stability, it withstands harsh weather and rough roadside conditions. Its superior reflectivity, up to twice that of standard cones, ensures visibility during low-light operations. Weighing only 4 lbs, with molded handles and a fill port for optional added weight, FirstGard is mission-ready when seconds matter and reliability can't be compromised.

FIRSTGARD FOLDABLE CONE

- FOLDS TO JUST 1.5" WIDE
- FILL OPTION FOR ADDED WEIGHT
- 2X REFLECTIVE AS STANDARD CONES

PSS

At PSS, our purpose is simple but vital: we make travel safer. Every product we design serves that mission by protecting workers, pedestrians, and first responders in the most critical moments. With decades of experience and a deep commitment to innovation, we provide dependable road response equipment and ADA-compliant solutions that meet the highest safety standards.

Now gaining traction with departments across the country, the FirstGard™ Foldable Traffic Cone offers a smarter, more compact solution for roadside safety. Designed with input from first responders, it stores easily in patrol vehicles and deploys in seconds to establish quick, visible perimeters. FirstGard™ complements our full range of safety solutions, from high-visibility traffic control devices to ADA-compliant pedestrian access tools—all built to help agencies respond confidently and protect lives on the road.

Body Armor Panel

Building on the trusted performance of Engarde's MT-PRO panel, the MT-PRO-GEN7 sets a new standard in personal safety. This upgraded model offers advancements in thinness, flexibility, and ballistic resistance, delivering protection without sacrificing comfort or discretion. Measuring just 8 mm, it weighs only 4.8 kg/m². Despite its reduced size and weight, it is engineered to provide robust NIJ .06 Level IIIa protection, including against special rounds like 9 mm Ranger S&T, 7.62x25 mm Tokarev, and 5.7x28 mm SS197. Additionally, it delivers superior knife resistance, effectively stopping the P1 knife (15 Joules, <20 mm) and the S1 knife (15 Joules, <1 mm).

Emergency Communications Monitoring

GUGLI, a California-based innovator in wireless telecommunications, has introduced a breakthrough in monitoring emergency responder radio systems (ERRCs), private wireless networks, and cellular systems within buildings. This AI-powered technology offers continuous monitoring, enhancing safety, connectivity, and emergency response capabilities. The system provides real-time oversight of antennas and passive components, supports modular installation, and is compatible with various platforms. It also monitors environmental factors like humidity, temperature, seismic activity, and gunshots. This proactive approach ensures reliable communication for first responders, enabling faster and more precise emergency navigation, enhancing first responder safety, streamlining operations, and saving lives. The technology is applicable across diverse settings.
